### ABOUT MYSELF

As a Mid-Level DevOps Engineer, working in building and managing CI/CD pipelines using Jenkins, SonarQube, and Docker. I have hands-on experience with Helm and Kubernetes on AWS, leveraging services like EC2, ECS, S3, RDS, VPC, IAM, and CloudWatch for scalable infrastructure, monitoring, and security. I am skilled in Infrastructure as Code (IaC) for automation and high availability. Additionally, I work with scripting languages such as YAML, Python, and Bash, and have a strong background in Linux system administration. I also have a basic understanding of GCP for cloud-based infrastructure and services.

### WORK EXPERIENCE

**IZZONE** – LAHORE, PAKISTAN

**DEVOPS INTERNEE ENGINEER** – 27/12/2024 – CURRENT

Currently, I am working with a senior DevOps team, assisting in building and managing CI/CD pipelines using Jenkins, SonarQube, and Docker for seamless application deployment. I am also contributing to managing containerized applications on AWS with Helm and Kubernetes, utilizing services such as EC2, ECS, S3, RDS, VPC, IAM, and CloudWatch for scalable infrastructure, monitoring, storage, and security. Additionally, I assist in implementing Infrastructure as Code (IaC) for automation and high availability, and support scripting automation using YAML, Python, and Bash. My role also involves providing Linux system administration support and contributing to cloud-based infrastructure with a basic understanding of GCP.

**TATWEER FOR SOFTWARE SOLUTIONS** – MASQAT, OMAN

**LARAVEL DEVELOPER** – 08/07/2023 – CURRENT

As a Laravel developer, I possess a robust skill set encompassing the full spectrum of web development, from back-end to front-end. My expertise lies in designing and implementing RESTful APIs using Laravel's powerful framework, ensuring efficient and secure data handling. On the front-end, I leverage Bootstrap for responsive design and utilize JavaScript and ReactJS to create dynamic and interactive user interfaces. I streamline my workflow with Git for version control, enabling seamless collaboration and code management. Additionally, I build and deploy applications using CI/CD pipelines, ensuring smooth transitions from development to production environments. My comprehensive approach ensures the delivery of high-quality, scalable web applications.

### EDUCATION AND TRAINING

30/11/2015 – 26/12/2019 Lahore, Pakistan

**BS ELECTRICAL ENGINEERING** University of the Punjab

Website [www.pu.edu.pk](http://www.pu.edu.pk)

12/02/2020 – 09/06/2022 Sargodah, Pakistan

**MA INTERNATIONAL RELATIONS** University of Sargodah

Website [Su.edu.pk](http://Su.edu.pk)

### LANGUAGE SKILLS

Mother tongue(s): **URDU**

Other language(s):
